

Newcomb Tulane College Honors Program

Honors Thesis Second Progress Report

At this point students are expected to have submitted to their readers in draft form roughly one third of the complete projected thesis. This form is to be signed by the three readers, to signify their approval of the work-in-progress. If necessary, you may make copies of this form and have each reader sign a separate form. The signed form is to be submitted to the Honors Program office by 4:00 on January 22, 2018. *For this progress report, do not submit the draft of your thesis-in-progress to the Honors Program.*

Name of student _____

Major or majors for which this is being written _____

Title of thesis _____

For faculty readers:

Please evaluate the work to date of this student on his or her honors thesis. At this point, at least one third of the thesis should be complete in draft form, and it should be clear that the student is moving towards successful completion of the thesis at the honors standard (A-). Keep in mind that problems will be much easier to solve now than later in the spring semester. If you have questions or wish to discuss a student's progress, please contact the Director of the Honors Program at 865-5517 or tlungo@tulane.edu.

I am satisfied that this student is making sufficient progress on the thesis at this time.
